

# PHOTOGRAPHIC TOURS

Module II

Course

Photo-video  
concept

Topic

Photography

Lesson 2

## Activity

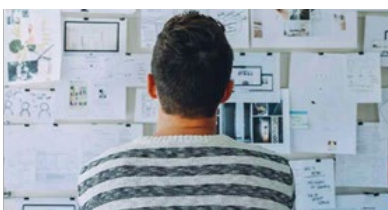

- **Short Description:** Create work groups and organize excursions to heritage realities that the users themselves select. Each of the groups must choose a different typology and show their values through the photographic material obtained.
- **Methodology:** Collaborative learning.
- **Duration:** 4 hours
- **Difficulty (high - medium - low):** Medium
- **Individual / Team:** Footage individual/Discussion in group.
- **Classroom / House:** Footage in the street/Discussion in the classroom.
- **What do we need to do this activity?**
  - **Hardware:** Computer, Photo Camera or Mobile Phone with a quality camera
  - **Software:** None
  - **Other resources:** Paper and pen.

## Description

- **Text description:** Choose and photograph the heritage element that you have chosen with the group. The photograph must be individual but the visit to the cultural or natural asset will be in a group.

## Instructions

1. Set up working groups.

2. Choose a heritage asset, whether cultural or natural.
3. Organize an excursion to the heritage site to take the first images in manual mode of the camera.
4. Transfer the images to the computer for later analysis in class.

### Expected outcomes

- Carry out a first experience with the camera applying the notions of photography learned in the lesson.
- Compare with the rest of the group the quality of the photographic material obtained.

### This activity can be used in other (module, course, topic, lesson):

- **Module II, Course Video, Topic Camera Settings, Lesson 2**

**DIGICOMP (Competences developed):** *Developing digital content.*

**ENTRECOMP (Competences developed):** *Learning through experience.*
