

*In this lesson, we will learn...*

4 easy tips for recording  
vocals at home.

In this lesson, we will analyze the 4 fundamental steps that you have to follow...

*in order to set up a home studio that allows you to record voices at home with the highest quality.*

## 1

## THE ROOM

*It is vitally important to have  
adequate physical space.*

We have to attend equally to the chosen microphone as well as to the room where we are going to work.

- ✓ a room that is as quiet as possible
- ✓ a fairly uniform structure (better rectangular than squared)
- ✓ a high ceiling (about 3 meters)
- ✓ away from bathrooms and kitchen
- ✓ that does not contain excessively reflective elements

# 2

## THE MICROPHONE

*Choose the most appropriate microphone depending on the type of voice and the audio chain.*

✔ You can also use the mobile phone to record. You just have to download one of these suggested apps, and REC!

✔ Quik

✔ Voice Recorder

## 3

## THE SOFTWARE

*Choose the platform  
with which you are  
going to record*

Audio recording programs allow you to open an audio track, select a microphone input, and record

## 4

## THE HEADPHONES

*To finish, you will need to get a reference system, both to monitor the mix and the recording.*

Their choice will be determined by the type of instrument we are going to record, in this case the voice...

and by the type or size of room in which we are going to carry out all this work.

- Conclusions

*Taking all these recommendations into account will ensure the final viability of the audiovisual project. The quality of the audio is essential for understanding the script that we have prepared.*

If we show, we sensitize ...  
If we sensitize, we  
protect!
